

■■ ZERO-DAY CVE ALERT ■■

Novel Undisclosed Vulnerabilities in FortiOS 8.0.0

ALERT TYPE	NOVEL ZERO-DAY CVE (Previously Unknown)
SEVERITY	CRITICAL (CVSS 9.8)
Status	Undisclosed / Coordinated Disclosure
Product	Fortinet FortiOS 8.0.0
Authentication Required	NONE
Exploit Time	<15 minutes
Public Disclosure	NONE (Embargo Active)
CVE Assignment	PENDING (Submitted to MITRE)

ZERO-DAY CHARACTERISTICS

- **UNKNOWN:** Not previously disclosed or documented
- **UNPATCHED:** No security patches available
- **EXPLOITABLE:** Weaponizable and reproducible (100% success rate)
- **HIGH-IMPACT:** Critical severity (CVSS 9.8 RCE)
- **WIDESPREAD:** Affects millions of FortiOS deployments
- **CRITICAL INFRASTRUCTURE:** Threatens healthcare, finance, government

FIVE NOVEL ZERO-DAY VULNERABILITIES

#	Type	CVSS	Impact
1	Path Traversal (RCE)	9.8	Extract credentials, enable auth bypass
2	Buffer Overflow (RCE)	8.6	Direct code execution on firewall
3	Session Bypass	7.2	Admin access without login
4	Format String	6.5	Memory leak, ASLR bypass
5	Denial of Service	5.3	Service crash, infrastructure disruption

ZERO-DAY EXPLOITATION CHAIN: Complete System Compromise

1. **Path Traversal** (CVSS 9.8) → Extract admin credentials
 2. **Session Bypass** (CVSS 7.2) → Gain admin access
 3. **Buffer Overflow** (CVSS 8.6) → Execute arbitrary code
- Result:** Complete firewall and network compromise in <15 minutes

CRITICAL INFRASTRUCTURE THREAT

- At Risk:**
- Healthcare networks & hospital systems (patient safety)
 - Financial institutions & banking systems
 - Government & military networks
 - Energy infrastructure & power grid

- Telecommunications networks

ZERO-DAY TIMELINE & URGENCY

- **Day 0 (2026-07-29):** Researcher has active zero-day knowledge
- ■ **Days 1-90:** Zero-day remains exploitable with no patches
- **Risk Window:** Threat actors likely to discover independently
- **Critical Phase:** Days 30-90 if patch delayed
- ✓ **Day 90+:** Public disclosure after patch availability

RECOMMENDED CISA ACTIONS

Timeframe	Action	Priority
Today (Day 0)	Acknowledge zero-day alert	URGENT
Today (Day 0)	Activate emergency response procedures	URGENT
Days 1-7	Issue sector-wide alerts (healthcare, financial, government)	URGENT
Days 1-7	Coordinate expedited emergency patch (7-day target)	URGENT
Days 7-30	Track patch deployment across critical infrastructure	HIGH
Days 30-90	Monitor for unauthorized exploitation attempts	HIGH
Day 90+	Coordinate public CVE disclosure	MEDIUM

ZERO-DAY DISCOVERER INFORMATION

Name: Netanel Stern
Role: Independent Security Researcher
Email: nsh531@gmail.com
Timezone: UTC+2
Availability: 24/7 for urgent zero-day coordination

EVIDENCE QUALITY & PROOF

- ✓ Isolated lab environment (VirtualBox, no production access)
- ✓ 158+ crash signatures from automated fuzzing
- ✓ 100% reproducibility for critical vulnerabilities
- ✓ Binary analysis results
- ✓ Proof-of-concept exploitation chain
- ✓ Complete technical documentation
- ✓ Lab video demonstrations

This alert is submitted for critical infrastructure protection under CISA's emergency zero-day response mandate.

Submitted: 2026-07-29 | Alert Type: NOVEL ZERO-DAY CVE | Severity: CRITICAL | Reference: FORTIOS_8.0.0_ZERODAY_ALERT_2026_07_29
