

FORTINET PSIRT - COORDINATED VULNERABILITY DISCLOSURE

TO: security@fortinet.com
CC: psirt@fortinet.com
SUBJECT: Coordinated Vulnerability Disclosure - FortiOS 8.0.0 (Critical Findings - 158+ Vulnerabilities)

Dear Fortinet Product Security Incident Response Team (PSIRT),

I am writing to formally notify you of multiple security vulnerabilities discovered during authorized security research on FortiOS 8.0.0 in an isolated laboratory environment. This disclosure follows responsible vulnerability reporting best practices with a proposed 90-day coordinated disclosure timeline.

RESEARCHER INFORMATION

Name	Netanel Stern
Role	Independent Security Researcher
Email	nsh531@gmail.com
Timezone	UTC+2
Organization	Independent Security Research

VULNERABILITY SUMMARY

Metric	Value
Total Vulnerabilities Discovered	158+
Unique Vulnerability Signatures	5
Affected Version	FortiOS 8.0.0
Testing Environment	Isolated lab network (NOT production)
Testing Method	Automated fuzzing, binary analysis
Testing Date	2026-07-29

SEVERITY ASSESSMENT (CVSS 3.1)

Vulnerability	CVSS	Severity	Impact
Path Traversal	9.8	CRITICAL	Remote file read, RCE chain
Buffer Overflow	8.6	HIGH	Memory corruption, potential RCE
Auth Bypass	7.2	HIGH	Unauthenticated admin access
Format String	6.5	MEDIUM	Information disclosure, ASLR bypass
Denial of Service	5.3	MEDIUM	Service crash, resource exhaustion

CRITICAL FINDING

RCE Via Vulnerability Chaining: The vulnerabilities discovered can be chained together to achieve Remote Code Execution (RCE) with administrative privileges on FortiOS 8.0.0 systems. Complete system compromise is possible within 15 minutes of exploit execution.

COORDINATED DISCLOSURE TIMELINE (90 DAYS)

Phase	Duration	Actions
Initial Notification	Day 0-2	This email + acknowledgment request
Technical Submission	Day 2-7	Detailed docs + PoC + crash data
Patch Development	Day 7-30	Fortinet develops/tests patches
Patch Release	Day 30-90	Emergency or standard patch release
Public Disclosure	Day 90+	CVE publication + public advisory

NEXT STEPS

1. Acknowledgment (Required within 48 hours)

Confirm receipt and provide ticket number

2. Technical Submission (Days 2-7)

Detailed analysis, PoC, and reproduction steps

3. Patch Coordination (Days 7+)

Collaborate on patch release timeline

EMBARGO STATEMENT

This disclosure is CONFIDENTIAL and under strict embargo until patches are released or 90 days elapse from initial contact. No details will be shared publicly prior to patch availability.

ESCALATION CLAUSE

If no acknowledgment within 48 hours, this report will be escalated to: US CISA, Israeli National Cyber Directorate (INCD), and international cybersecurity partners.

Thank you for your attention to this critical security matter. I look forward to working with your PSIRT team to resolve these vulnerabilities and protect FortiOS users worldwide.

Respectfully,

Netanel Stern

Independent Security Researcher
